EXPERIENCE

2021 - 2023

Philadelphia, Pa

Web Developer

Thomas Jefferson University Hospitals

Jefferson is the premier Hospital Network and Health Services University in Pennsylvania.

· Design, develop, test, and implement web applications based on business requirements using AEM, Node, and JavaScript frameworks.
· Maintain, troubleshoot, optimize, and enhance existing systems by adding innovative features.
· Worked within timed sprints using Agile methodologies and various workflows.
· Developed diverse and adaptive custom componentry for non-technical AEM authors to update and maintain.
· Extensive and varied contributions to the company's frontend rebranding.

2020 - 2021

Philadelphia, Pa

Production Editor

Taylor & Francis

Taylor & Francis is among the most respected academic publishers worldwide.

· Ensure the seamless production of academic journals from peer review and copyediting to print publication.
· Management of 3 international employees to oversee over 50 publications, each with their own bespoke styles
· Interfaced with proprietary database applications, XML and OCT.

2017 - 2021

Philadelphia, Pa

Art Technician

Philadelphia Museum of Art

The quintessential art museum of Pennsylvania.

· Specialized in various art mediums to ensure proper handling, exhibition, storage and shipping strategies
· Used proprietary software to log and update an expansive inventory database while collaborating with multiple departments to ensure accuracy.
